

# SRPMIC COVID-19 INFORMATION

## Practice Preventative Measures

Until we have a vaccine, we cannot go back to the way things were pre-COVID-19. This is not what people may want to hear, but in order to keep our community safe and protect our most vulnerable, we have to create a new normal according to Maricopa County Officials.

The County expects to see an increase in cases with more people out and about and are concerned about the rate at which cases are increasing.

**Here in Salt River we have the tools to absolutely slow our rate of infection if we each do our part.**

**WHEN POSSIBLE – Avoid being in any setting with more than 10 people.**

**ALWAYS – Keep at least six feet of distance from others when out in public.**

**WHEN POSSIBLE – Limit contact with those outside your household, especially if you are in a high-risk group.**

**ALWAYS – Stay home when you are sick.**

**ALWAYS – Stay home as much as possible when a household member has tested positive for COVID-19, except to get essential medical care, prescriptions, and food.**

**FREQUENTLY – Wash hands with soap and water, and use alcohol-based hand sanitizer if unable to wash hands.**

**ALWAYS – Wear a mask or cloth face covering when going out in public.**

**Regardless of age or risk, all persons in the Salt River Indian Community should take proper precautions to keep themselves, those they love, and our Community safe.**
